

Here is the scheme for FTB.

FTB Requirements

FTB API Requirements (Swagger)

Prepare a full mindmap of FTB features according to the requirements.

Prepare the list of questions to a developer.

1 According to FTB requirements we have:

FTB System Functionalities

- Schedule Flights
- Book Flights
- Search Available Flights
- Verify Booking

1.1. For Admin:

According to UI of FTB application , admin also can :

Add, edit, delete airports

← → ↺ ⚠ Not secure 192.168.40.100:8108/airports

FTB Home Airports Aircrafts Flights Search Flight Verify Booking john Logout

Search

1.3 Customers do not need to login. They can see flights, search flight, verify booking

2. According to all this information the Use Case Diagram must be with more opportunities than we can see now. We need to renew it.

Use Case Diagram

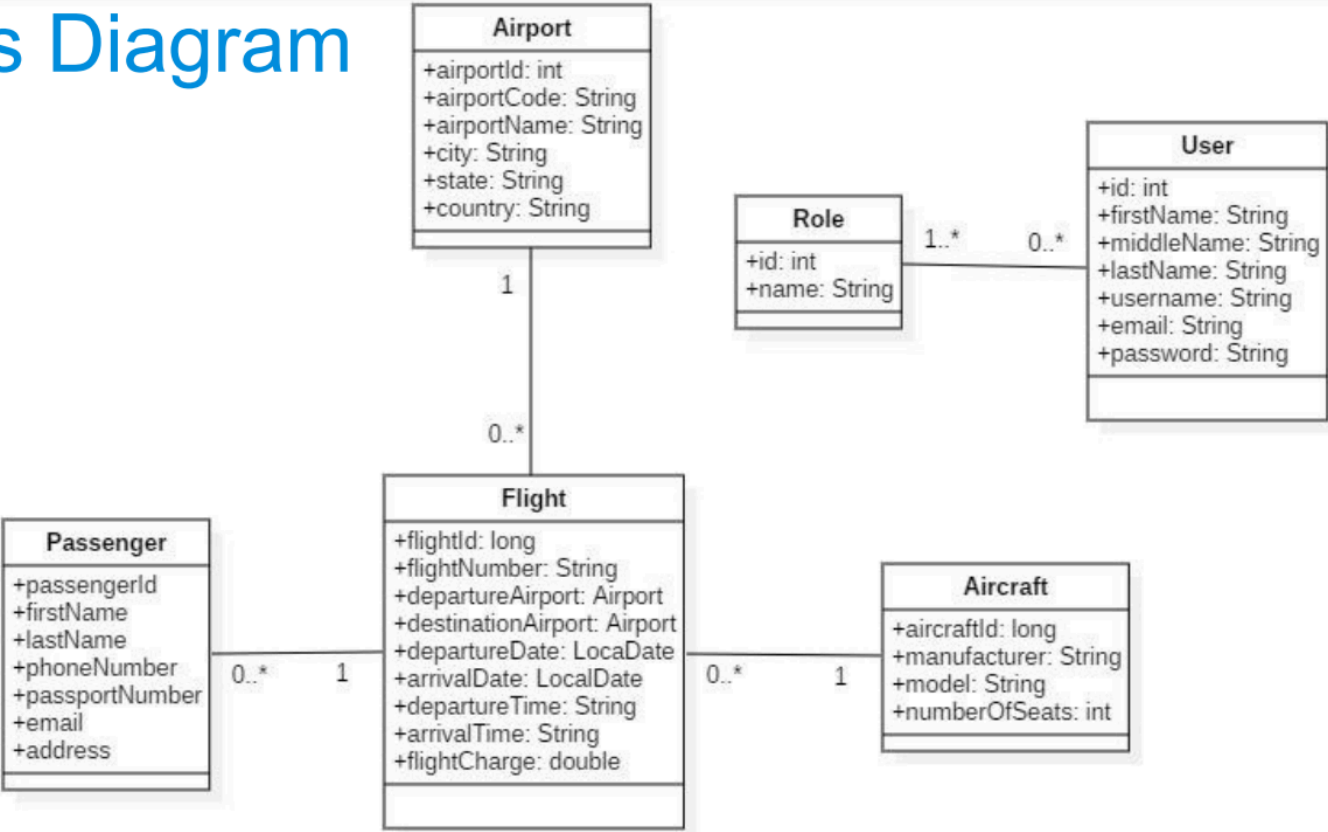

3. On the Class Diagram we do not see any types for all fields for Passenger.

What we have here is an empty rectangle for every part: Airport, Role and so on... Smth must be written here?

Are all attributes public? What about users and roles?

Class Diagram

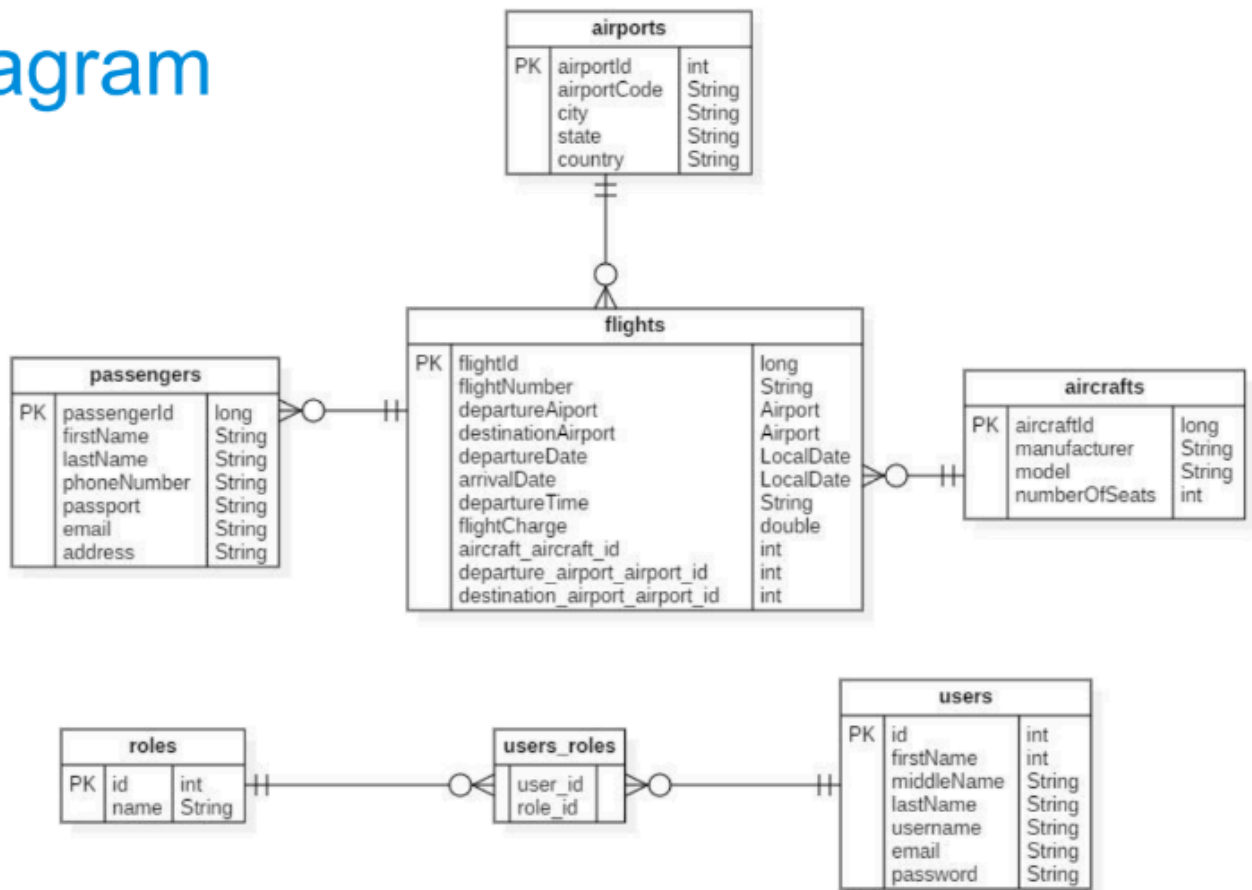

4 Er diagram. Is there a PK for users roles table?

Maybe for better understanding it is better to show all FK for all tables

Why are the names on the ER diagram and class diagram different? (for example - Flight and flights)

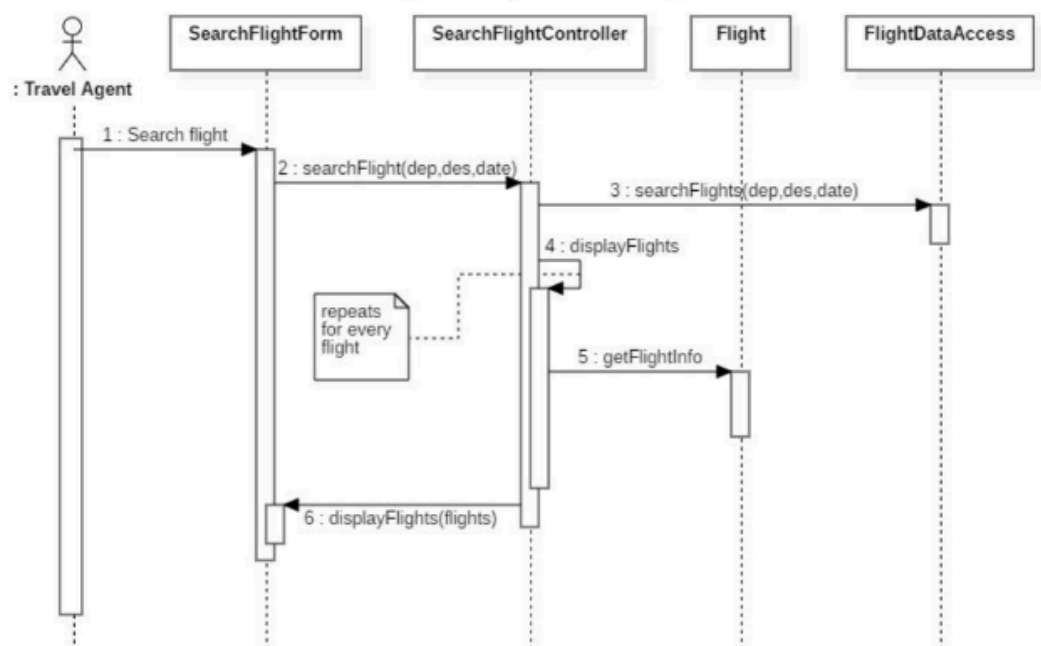

ER Diagram

5 Sequence Diagram is not right
 Step number 4 must begin from step number 3
 Flights must be shown for users on UI
 From what getFlightInfo takes all data?
 What flights are shown only at 6 step?

Sequence Diagram for Search Flight

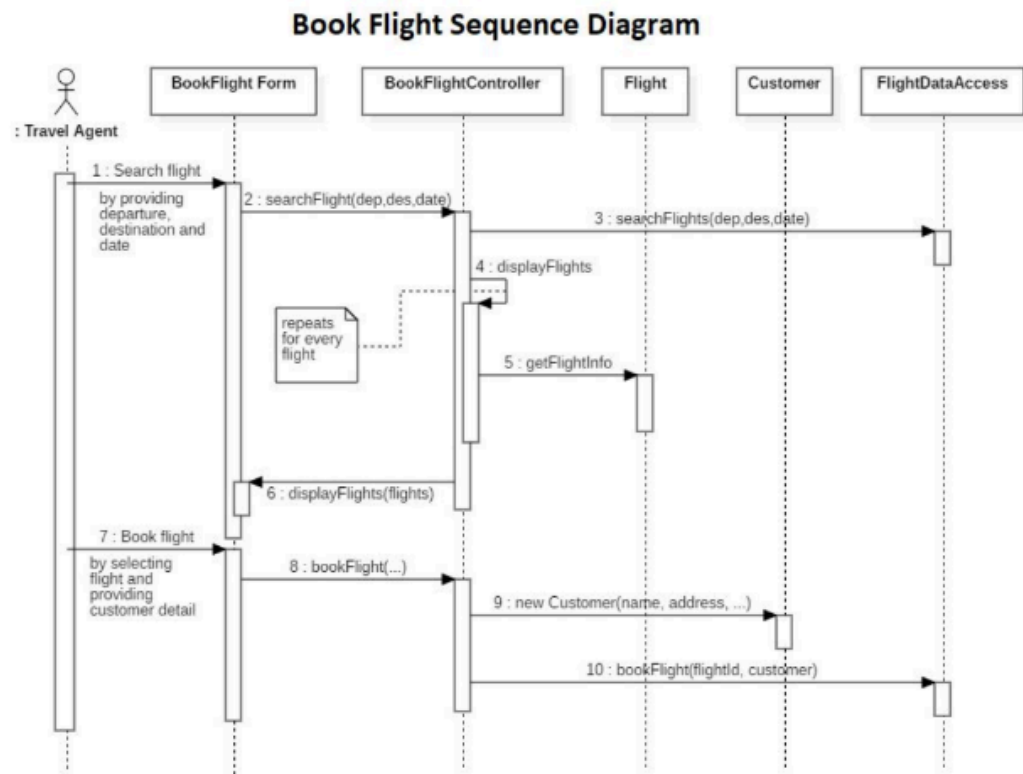

Search Flight Sequence Diagram

6 Sequence diagram for book flight also is not right
 Step number 4 must begin from step number 3

Flights must be shown for users on UI
 From what getFlightInfo takes all data?
 What flights are shown only at 6 step?
 Why step 9 is not till FlightDataAccess?
 Why step 10 begin from BookFlightController

Sequence Diagram for Book Flight

7 Collaboration Diagram
 Which user is on Collaboration Diagram
 First collaboration diagram should have Flight in the name
 Ends of this diagram are not clear

Collaboration Diagram
